NUR-E-JANNAT ORPA

COMPUTER SCIENCE & ENGINEERING STUDENT

United International University

github.com/orpa905

PROFILE

Computer Science and Engineering student focused on building practical software and turning ideas into products. Project experience spans campus services, collaborative learning, and AI-assisted healthcare. Passionate about clean code, team leadership, and creative problem-solving.

SELECTED PROJECTS

Smart Canteen

A smart canteen management system designed to streamline food ordering, queue management, and payments for university campuses.

github.com/orpa905/SmartCanteen

Study2Gether

A teacher-student collaboration platform designed to connect educators and learners through structured study tools.

github.com/orpa905/Study2Gether

AI Medical Chatbot

An AI project combining a medical chatbot with medical image processing capabilities.

github.com/orpa905/AI_Project

EDUCATION

B.Sc. in Computer Science & Engineering 2022 - Present

United International University

Currently enrolled

Higher Secondary Certificate (HSC) | Science 2020

BCIC College | GPA 5.00

Secondary School Certificate (SSC) | Science 2018

BCIC College (School) | GPA 4.78
